DETAILED ACTION

Response to Amendment

Amendment filed 6/7/06 has been entered and considered by the Examiner. Claims 2 and 16 have been canceled; claim 31 has been added. Currently, claims 1, 3-15, and 17-31 are pending in the instant application.

Election/Restrictions

Claims 1 and 31 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn, and claims 18-30, directed to the species of a diamond containing layer configuration, are no longer withdrawn from consideration, since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1, 3-15, and 17-31 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the reference of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation a PDP comprising a diamond-containing layer made of an insulation material containing diamond, and formed in a position where an addressing discharge is produced between a paired display electrodes and an addressing electrode in a discharge cell, wherein the insulation material forming the diamond-containing layer is a phosphor material of the same color as that of a phosphor material forming a phosphor layer, in combination with the remaining limitations of the claim.

Claims 3-15 and 26-30 are allowable for the reasons given in claim 1 due to their dependency status from claim 1.

Regarding claim 31, the reference of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 31, and specifically comprising the limitation a PDP comprising a diamond-containing layer made of an insulation material containing diamond, and formed in a position where an addressing discharge is produced between a paired display electrodes and an addressing electrode in a discharge cell, wherein the paired discharge electrodes are formed on one of the two substrates and the addressing electrodes are formed on the other substrate, and the diamond-

containing layer is formed in a position in a phosphor layer facing the addressing electrode, in combination with the remaining limitations of the claim.

Claims 17-25 are allowable for the reasons given in claim 31 due to their dependency status from claim 31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth A. Rielley whose telephone number is 571-272-2117. The examiner can normally be reached on Monday - Friday 7:30 - 4:00.
